- Had similar event in May and raised \$250,000

About Hope for the Future

Hope for the Future Benefit will raise funds in support of Door of Hope's Domestic Violence site.

Currently operating at full capacity with a long waiting list, Door of Hope's Domestic Violence site houses 13 families and provides case management, therapy, financial education, and life skills classes for parents, as well as an after-school program for the children. With an impending cut in government funding, the Hope for the Future Benefit will close the funding cap and allow us to continue vital services to these vulnerable women and children.

Door of Hope is one of the only local homeless services organization that can house any kind of family *together*, including single moms, single dads, and married couples together with their children; over half our families are homeless because they are fleeing domestic violence situations. Since our founding in 1985, Door of Hope has expanded from one site to three sites with capacity to serve 25 families at a time. Of the families who complete our program, 92% are still in permanent housing 1 year later and 82% are still in permanent housing 5 years later.
